

Town of Discovery Bay
A California Community Services District
"Friday Letter"
To the Board of Directors
JUNE 20, 2014

From: Rick Howard, General Manager

General Manager/Administration:

- ✓ The recent LAFCO approval of the Town of Discovery Bay's MSR included adding the land at Treatment Plant #2 into our Sphere of Influence. This will make the annexation process much easier. The Annexation paperwork has started, but it will likely be a few months before the entire process is complete as it has to go before the Town's Board and then the LAFCO Board.
- ✓ On Monday I will be attending a General Manager's Leadership Summit sponsored by CSDA. I will be back in the office Tuesday afternoon.
- ✓ Lesley celebrates her 2nd anniversary with the Town next Wednesday. Congratulations Lesley!
- ✓ On a similar note, I celebrated 4 years with the District on June 14th. Congratulations to me! ☺

Parks, Landscape and Recreation Services

- ✓ As you know, the Community Center swimming pool opened Memorial Day weekend. In the three plus weeks that the pool has been open the turnout has far exceeded our expectations. Since we opened, over 900 people have used the pool and more than \$5,000 has been brought in from day, 10 pass and season pass fees.
- ✓ Last Friday night kicked off the Friday Night Movies in the Park with the showing of *Frozen*, a very popular animated film that was released in 2013. Tonight's showing is Steven Spielberg's *The Goonies*, a classic 1985 movie that is always fun to see again and again. If you get a chance, stop on by, and don't forget the popcorn! I'd like to thank both Veolia and Kiper Homes for sponsoring this year's movie series. Their generosity provide 100% of the royalty fees associated with showing the movies The picture is from last week's showing:

- ✓ The River Otters have a big swim meet at Diamond Hills tomorrow. Go Otters!

Water and Wastewater Services

- ✓ The Lift Station F renovation project continues to proceed on schedule. The work is progressing in a very tight construction window. Residents driving through have been very cooperative, and the neighbors have been accommodating. We will owe them a big Thank You once the project is wrapped up.
- ✓ The Lift Station W, Influent Pump Station and Emergency Storage Lagoon project should be wrapping up in the next couple of weeks. To say we've been having contractor issues is an understatement and we are looking forward to getting this project behind us.
- ✓ The Oxidation Ditch project is moving forward at a rapid pace. The ditch itself is being excavated and as you can see by the photos, they are making good progress. This is a project that will be in construction for over a year.
